

Forecast For Tayside, Central & Fife
Issued by Met Office Aberdeen
at 0400 on Thursday 15 Jul 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Long spells of very warm sunshine developing.

Today:
Any early cloud in north and east soon clearing then a dry morning with long spells of unbroken sunshine. A little more cloud is expected in the afternoon but with light winds it will feel very warm in the sunshine. Maximum temperature 25 deg C (77 deg F).

Tonight:
A dry evening and night with late sunny then long clear spells, although rather more cloud is expected in the west. With light winds a few mist patches are possible. Minimum temperature 10 deg C (50 deg F).

Friday:
A bright day with sunny spells. There will be a little more cloud around than previous days but, with light winds, it will still feel very warm in the sunshine. Maximum temperature 25 deg C (77 deg F).

Outlook for Saturday to Monday:
Very warm again Saturday with sunny spells but becoming cloudier and cooler Sunday with patchy mainly light rain. Cloudy start Monday but becoming brighter in afternoon.
